

# M-STEP Readiness Workshop

## Presentation (click on hyperlink):

[Updates Regarding M-STEP](#) (click on title for MDE presentation)

- This presentation will provide you with information on the upcoming M-STEP Assessment.

## Resources (click on hyperlinks):

[M-STEP Grade Level Practice Tests](#)

Use this with students to preview technology features and test items.

[Classroom Activities, Performance Tasks and Rubrics](#)

Familiarize yourself and students with the format and scoring expectations for the classroom activities and performance tasks.

[Student and Teacher Online Assessment Awareness Course Orientation](#)

This tool was created to support teachers and students with online testing. In the course for students, learners will demonstrate the ability to successfully navigate technology enhanced online assessments. The course for teachers/administrators will focus on how to incorporate online learning/assessments in daily instruction so that students are prepared to take high stake online assessments.

[Teaching Tools for Spring Online Tests](#)

This presentation provides links to many highly interactive tools that could be used as resources in the classroom.

[Achieve the Core](#)

This resource provides lessons, student writing samples, activities, and more.
