

HIGH SCHOOL ONLINE LEARNING

Online Learning System is a computer-based learning system that provides students with another medium for achieving academic credit. The Online Learning System allows students to work at their own pace while completing necessary academic courses. Rochester Community Schools does not recommend online courses as preparation for an AP course in the same subject area.

How does Online Learning work?

- Online courses require students to have remote access to a high speed internet, standalone PC.
- The coursework will be accessible the first day of the session.
- All coursework, notebooks, and assessments must be completed by **9pm the night before** the last day of the session. If these are not completed, the student **will not be allowed** to take the final exam on the last day of the session. There are **no exceptions**.
- Students are required to take an assessment at Rochester High School on the first day of their session for Credit Recovery Classes only.
- Students will take their final exams at Rochester High School on the last day of the session.
- If the course is not completed in the allotted number of days, the student will earn a failing grade. There will be no extensions or incompletes.
- Each online course is designed to be the equivalent of approximately **60 hours of instruction**.
- The teacher will use RCS e-mail as the medium for communication with the students.

There will be a mandatory introductory meeting for all parents and students to review the course and technology requirements.

**The meeting will be held at
Rochester High School, 180 Livernois, Rochester Hills, MI 48307.**

Session 1: Mandatory Parent Meeting Date: Monday, June 18, 2018 @ 6:30 p.m. Media Center

Session 2: Mandatory Parent Meeting Date: Monday, July 9, 2018 @ 6:30 p.m. Media Center

New HYBRID Learning Classes

Students enrolled in our new, hybrid courses will attend instructor based classes in the AM (7:40am-11:10am) and then utilize an online learning program to complete their work each day at home. Students are expected to be completed with the online course before the end of the 11 day session and must report to the mandatory introductory meeting before their session begins. Tuition for this course is **\$325**. *All courses are subject to enrollment.*
