

How Do I Know if My Child Is Ready for Kindergarten? Parent Guide #2

Beginning in 2013, a child who is five years old on or before November 1 is able to enroll in kindergarten.*

► In 2014, a child who is five years old on or before October 1 may enroll in kindergarten.*

► In 2015 and beyond, a child who is five years old on or before September 1 may enroll in kindergarten.*

- Some children seem too young or not ready for school. Some families and teachers believe that getting older will help the child get ready for kindergarten. This is not always true; remember that children change a lot between May and September.
- Children grow and develop by learning from the world around them.
- New people and children help your child learn and grow.
- All children need time to talk about what they are doing with adults and other children.
- Kindergarten can help parents help their children at home.

The Family

Every child wants to feel safe and ready to succeed in school. Your family is the most important factor in supporting your child to achieve these feelings. Parent involvement improves your child's school success. It also helps your child feel good about himself or herself. Family support helps encourage your child to learn.

- Maintain a daily routine that includes mealtimes, snacks, and bedtimes.
- Be sure your child's shots and health check-ups are current.
- Make sure your child has plenty of play and outdoor time.
- Play with your child.
- Listen to your child.
- Talk to your child.
- Read to your child.
- Write with your child.

The Schools

- Work with families and neighborhoods so children enter kindergarten ready to succeed.
- Must be ready to teach children who come to school with different experiences of learning.
- Teach the material children need to learn for that grade level.

All young children can learn if they are given proper material, encouragement and family support.

****Please see Parent Guide #4 for information about an early entry option for kindergarten enrollment.***
