Cheryl A. Gambaro, Principal

Eric D. Williams, Assistant Principal

Dear Parents,

Great news! Our school has been selected for the Recyclebank Green Schools Program.

This program helps educate our kids on their environmental impact and empowers them to take action. Some students have come up with a great plan and Recyclebank has offered to help fund it, but we need your help, too.

How You Can Help:

1. Join Recyclebank and Earn Points.

We need to get Recyclebank Points to reach our goal. The math is simple: the more you earn, the more points you'll have to donate. Visit www.Recyclebank.com to get started.

2. Donate Those Points!

Find our school at www.Recyclebank.com/greenschools and donate your points. Recyclebank will convert your donated points into dollars that come directly to our school. For every 250 points donated, \$1 will go to our project.

3. Spread the word about our Green Schools project.

Please tell your friends, family and other community members about our project. Don't forget about the power of social media either! Facebook, Twitter and other sites can help us reach the largest possible audience.

Here's the best part of the Recyclebank Green Schools Program – everybody wins! All we have to do is raise the points.

Thanks so much for helping us meet our goal. We have until **March 16, 2015**, so don't delay, please donate to our school today!

Sincerely,

Ms. Cheryl Gambaro
