**Web Page:** [www.rochester.k12.mi.us/hart](http://www.rochester.k12.mi.us/hart)

## 1. Course Overview:

Math Lab is primarily a class for students requiring additional instruction in basic math skills, and help in current content. Students will receive instruction in past and present math concepts. Math Lab will also focus on developing self-discipline, responsibility, goal setting, and organizational skills. My goal is to get all students to be successful and more confident in math!

## 2. Grading:

- ✓ Math Lab is a pass/fail class.
- ✓ To pass, students must demonstrate daily that they are actively participating, respectful to all people, willing to learn and trying their hardest and maintain a 70% or higher.
- ✓ 4 points are awarded each day for participation/behavior. If a reminder is given in class you will lose 1 point.

## 3. Homework:

- ✓ I understand that you already get homework from your main math class
  - i. While this class is **not** a "homework help" class, I do expect that you bring everything you would to your normal math class here.
  - ii. If we finish what I have planned for the day, I would love to help you do your homework
  - iii. Even if you have no homework or have already finished it, bring it so I can check your work.
- ✓ All work that we do is **in class**, and meant for you to build your skills
- ✓ You will **NEVER** receive home practice in this class!

## 4. Email:

- ✓ Email is the fastest and most efficient way of communication
- ✓ I welcome frequent communication over any topic

I look forward to having a wonderful year.

Sincerely,

Kenneth Troy
