

Important Medical Information

If your child has a severe medical condition, that could affect him/her during the school day, please be sure to complete the medical information section on your child's emergency card. If your child needs to take over-the-counter or prescribed medication during the school day, special forms must be on file in the Attendance Office. The physician and parent/guardian must complete the forms before the medication can be dispensed. A parent/guardian must bring medication to the Attendance Office (not the student). It must be in the original prescription bottle with the correct dosage labeled. If you have questions regarding this procedure, please call (248) 726-5310. Students may not bring medication to school unless this procedure has been taken care of by a parent/guardian.
